Sleep Apnea Treatment

❑ Signs of possible Sleep-disordered breathing:

- 🦷 Clenching
- 🦷 Grinding
- 🦷 Gum recession
- 🦷 Broken fillings or teeth
- 🦷 Large tongue or tonsils
- 🦷 Neck size greater than 16"
- 🦷 Narrow airway
- 🦷 Snoring
- 🦷 Acid reflux
- 🦷 High blood pressure or cholesterol
- 🦷 Petite frame
- 🦷 Family history of Obstructive Sleep Apnea

Take our Home Sleep Test to determine the best treatment for your smile and overall health!

❑ Home Sleep Test- \$200

- 🦷 This one-night sleep study tracks your breathing patterns through the night in addition to your oxygen levels, heart rate, and the number of times you may experience labored breathing.
- 🦷 Upon completion we will review the results and if positive for Obstructive Sleep Apnea, discuss treatment options that include:

🦷 Oral Appliance Therapy

- 🦷 CPAP (Continuous Positive Airway Pressure) prescribed by your primary care doctor
- 🦷 Surgery to reduce tissue blockages around your airway

What's included in Oral Appliance Therapy?

- 🦷 Digital Impressions
- 🦷 One Mandibular Advancement Device
- 🦷 A letter to your primary care if desired
- 🦷 Follow up and adjustment appointments if necessary
- 🦷 One follow-up At-Home Sleep Test to track progress

❑ How much does it cost?

**\$400 Down Payment
& 12 monthly payments of \$250
on the 15th of every month**

This device is NOT covered by dental insurance. If you would like to seek coverage by your medical insurance, treatment should be conducted through your primary care physician.
